

APP INTRODUCTION

Rev 0.1 16/11/20

What is the The Mind APP?

- It's the APP dedicated to the end users, enabling them to control the stove with the new THE MIND electronics through their own smartphone.
- Allows the user to use the smartphone as if it were THE MIND remote control as the whole user menu is available on the App.
- The APP can be used at home via Bluetooth or remotely through the customer Wi-Fi Modem connection.

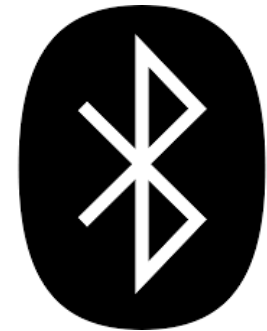

How and where can I get it?

The APP is available for download from the Play Store for Android and the APP Store for Apple devices

How can I associate the APP to the stove?

Press and keep pressed the “Flame” and the ON/OFF power keys at the same time on the emergency panel placed on the back of the stove until “PAIR” will appear. Open the APP on your smartphone. The APP will automatically search for the stove via Bluetooth. **NOTE: DO NOT** exceed the distance of 15 mt. (free area) from the stove when performing the operation.

After the pairing , the APP will be able to control the stove via Bluetooth just like the remote control within a max distance of 15 mt. from the product.

How can I operate the stove remotely?

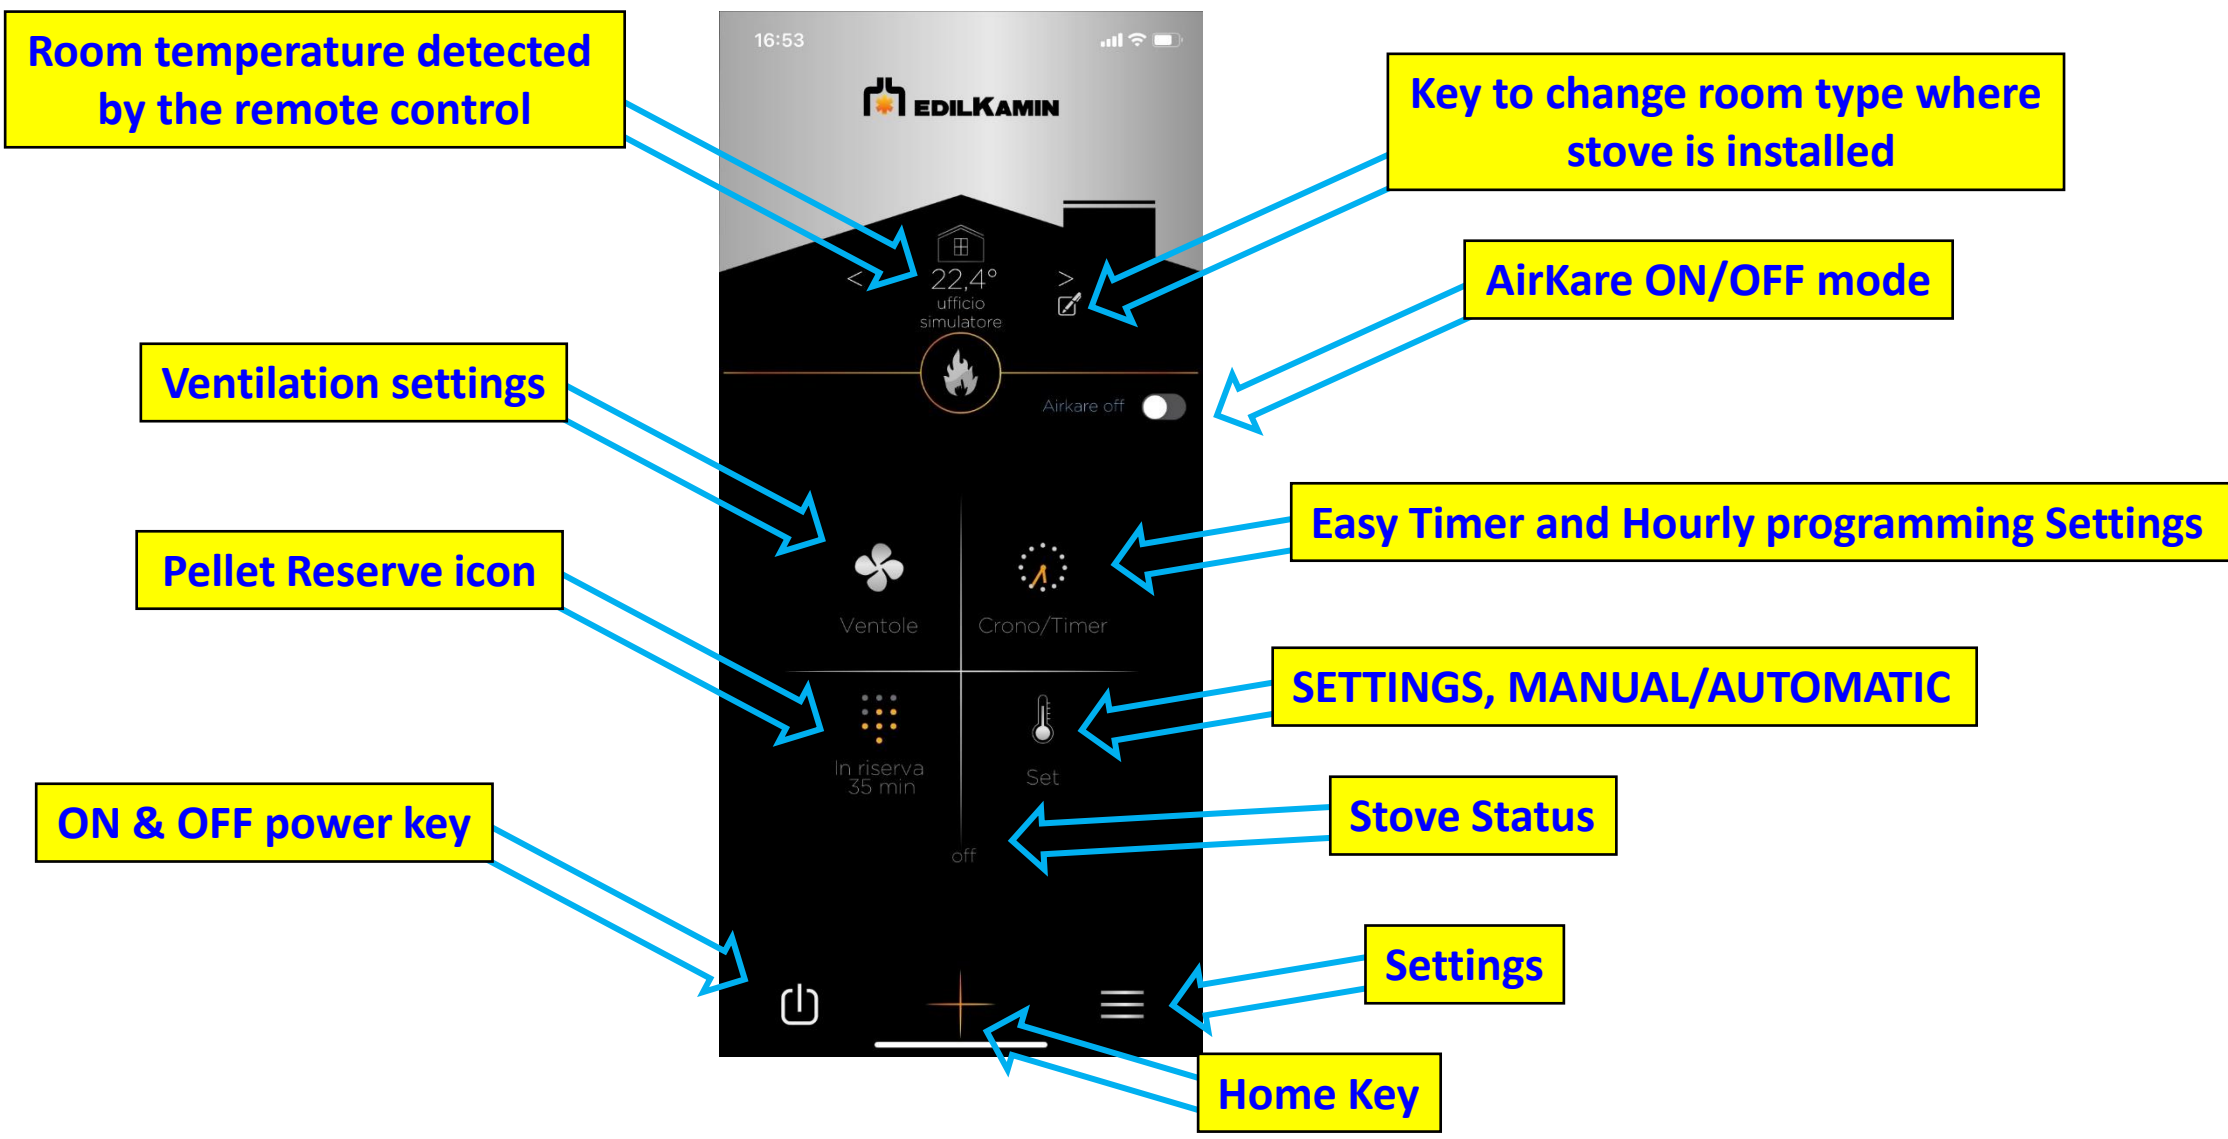

Through the APP menu “STOVE WI-FI SETTINGS, selecting the customer Wi-Fi network and entering his own password. In this quick and easy way, the APP will be connected to the stove even when away from home through the smartphone mobile data or other Wi-Fi network connections.

What can we do with the APP?

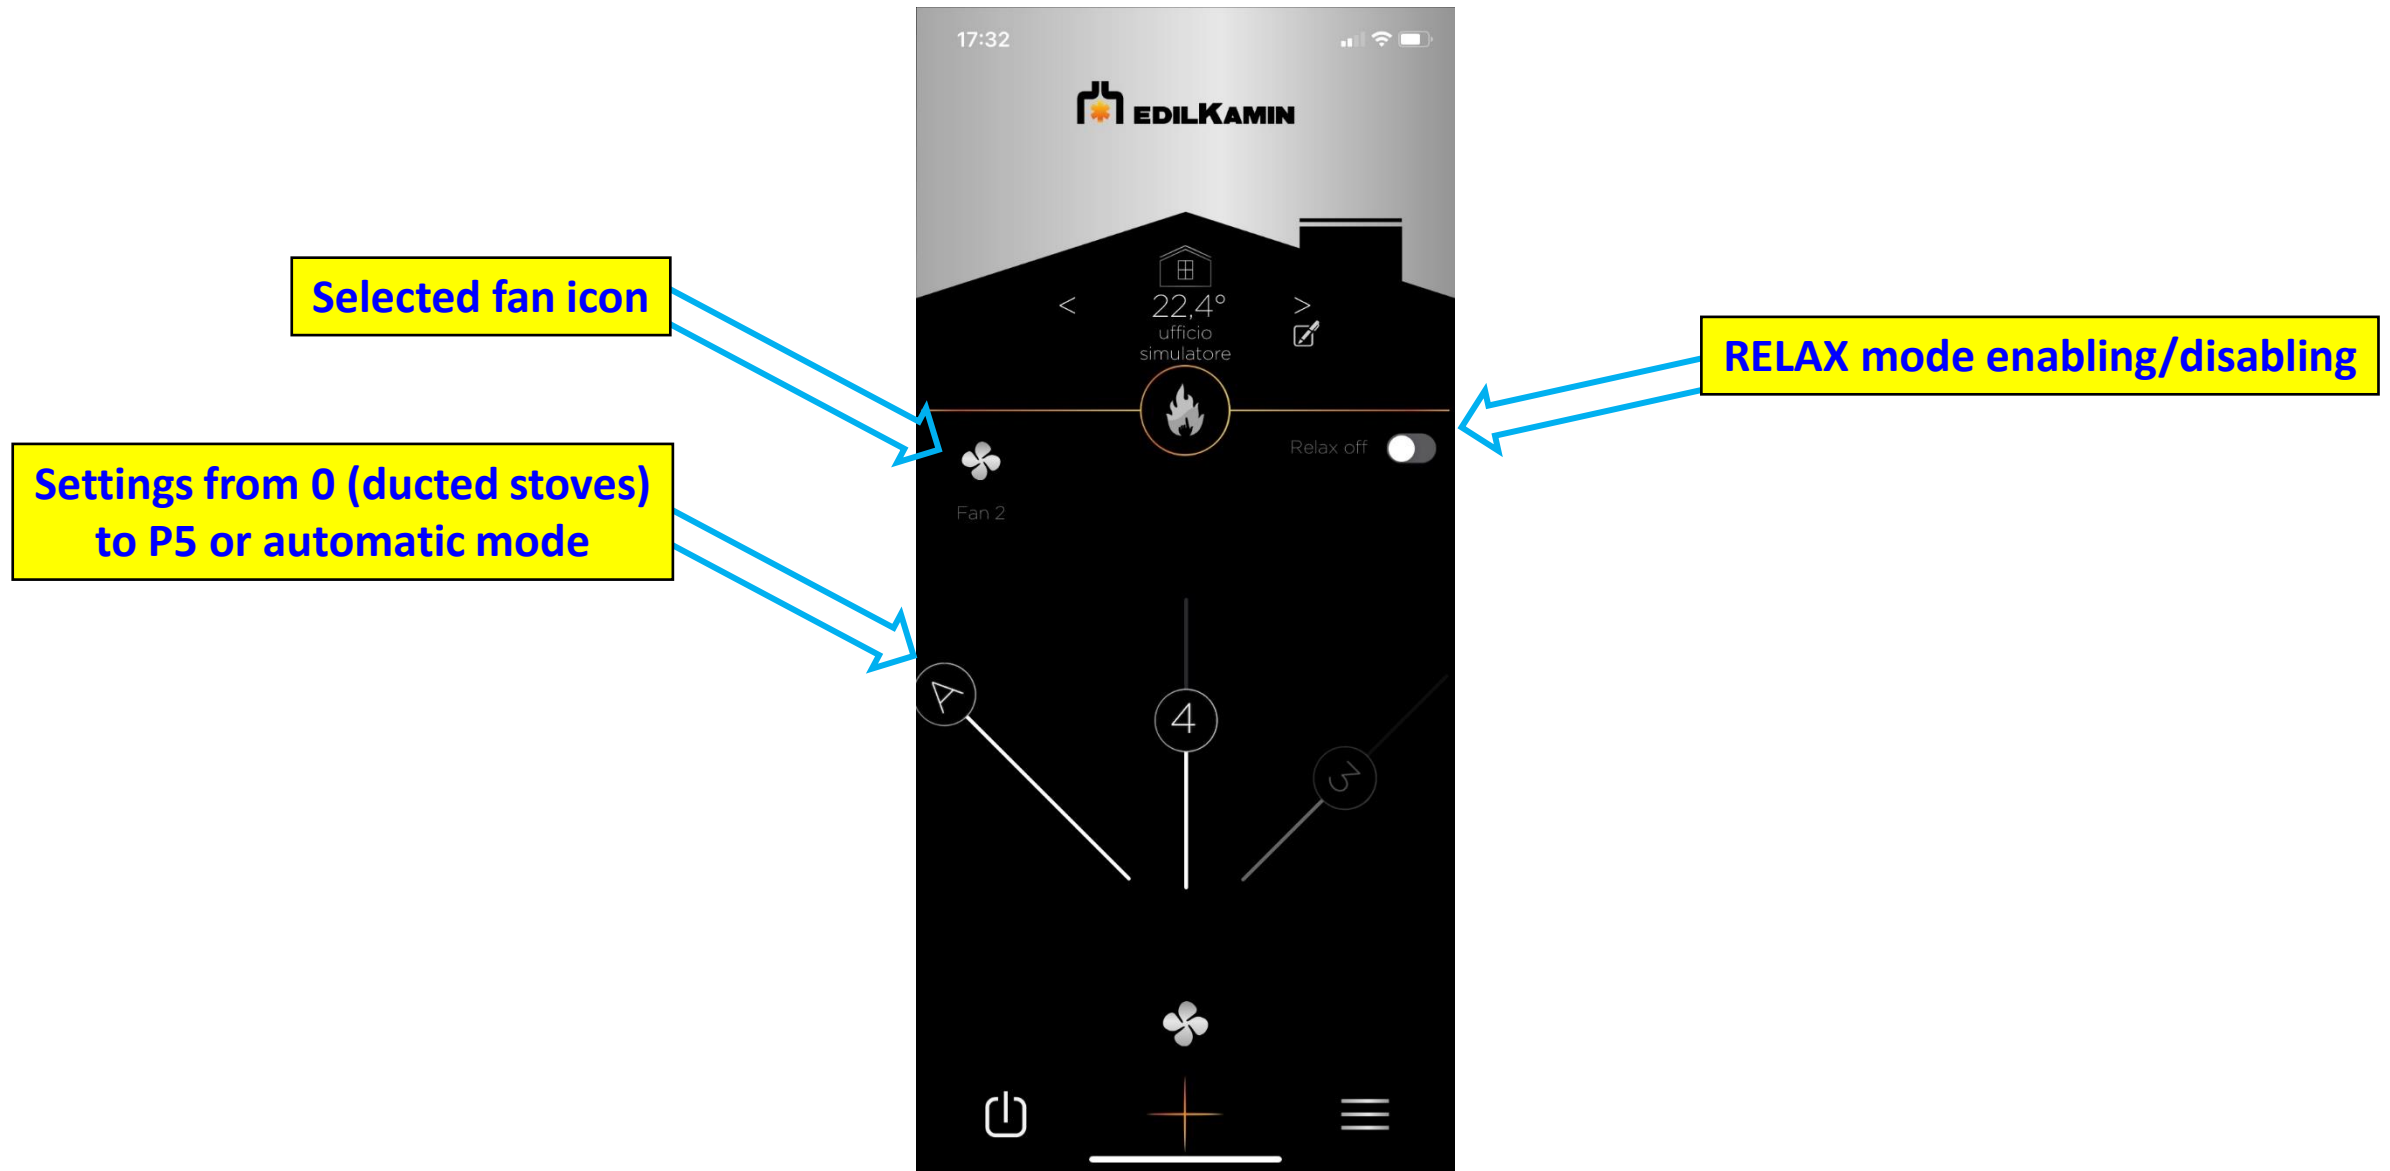

Activate the following features as in the remote control:

- Product switch ON and OFF
- Hourly programming
- Standby mode enabling/disabling
- Ventilation managing
- Easy Timer enabling/disabling and programming
- Automatic/Manual operating mode selection
- AirKare system enabling/disabling
- Full access to the end user menu as in the remote control

Frequent Asked Questions

Is it necessary to reprogram the motherboard/emergency panel?

- Only on stoves produced until 15.11.2020

Is there a Wi-Fi module fitted outside the stove?

- No. Wi-Fi and Bluetooth are integrated into the emergency panel.

Is a home Wi-Fi connection required?

- Only for a remote connection. The APP via Bluetooth may otherwise be used (within 15 mt.)

Is a Technical Assistance Centre intervention required?

- No, if the stove has been produced from 15.11.2020 onward.

What is the cost if the intervention is performed by a Technical Assistance Centre?

- Intervention fee will be €66,00= + VAT as per all previous Wi-Fi modules.

Is the App working on all Apple and Android devices?

- Not working on Apple devices prior to iPhone 6 and not suitable for the HUAWEI product range (may work on some of them and do not work at all on some others).

Frequent Asked Questions

How many smartphones can control a single stove?

- There is no limit even if the stove can be controlled by only one smartphone at a time.

How many stoves can be controlled by a single smarthphone?

- Just one at present. The multi-stove function will be shortly available.

Are the «old» Wi-Fi modules still working?

- Yes. Linx, Micronova and Hottoh electronics Wi-Fi modules will still be in use.

What are the THE MIND password requiremets?

- It must contain a CAPITOL letter, a number, a special character (/&%! For instance) and be at least 8 characters long.

Does the customer Wi-Fi network have to be 2.4 or 5 Ghz?

- Always 2.4 Ghz on 1st configuration, turning OFF the 5 Ghz one if present.
